

REMARKS

Applicant respectfully requests reconsideration and allowance of the subject application.

Claims 1-48 were originally submitted.

No claims are canceled.

No claims are added.

Claims 1, 13, 24, 28, 32, 37, 42 and 47 are currently amended.

Claims 1-48 remain in this application.

Drawings

The drawings are objected to because Fig. 3 uses the number "320" to designate two steps. The Action states that "The 'Establish/Create Comm. Channel with Server Computer' step should be labeled --325--, as shown in the specification on page 12, line 18."

A corrected drawing sheet with Fig. 3 is provided with this response in compliance with 37 CFR 1.121(d). Accordingly, Applicant respectfully requests that the drawing objection be withdrawn.

1 **Examiner Interview**

2 A telephone interview took place on July 12, 2006 between Examiner
3 Manual Barbee and Emmanuel Rivera. The primary reference of U.S. Published
4 Application 2001/0012986 to Conan et al (Conan) was discussed. Conan is used
5 by itself or in combination in rejecting the claims 1-48 in the Action. It was agreed
6 that Conan teaches that the testing or the test script is executed or performed at
7 testers or clients, not at a server computer. The claims have been amended to
8 specifically recite that the testing is performed or executed by the server computer.
9 Examiner Barbee agreed that such amendments should overcome Conan; however,
10 Examiner Barbee indicated additional searching would be performed. Along with
11 this response, a request for continued examination (RCE) will be filed.
